Announcing Smart Solar by Energy Kinetics

Solar water heating is one of the best ways to save money on your utility bill. Plus, you can help reduce our dependence on foreign energy and reduce green house gas emissions.

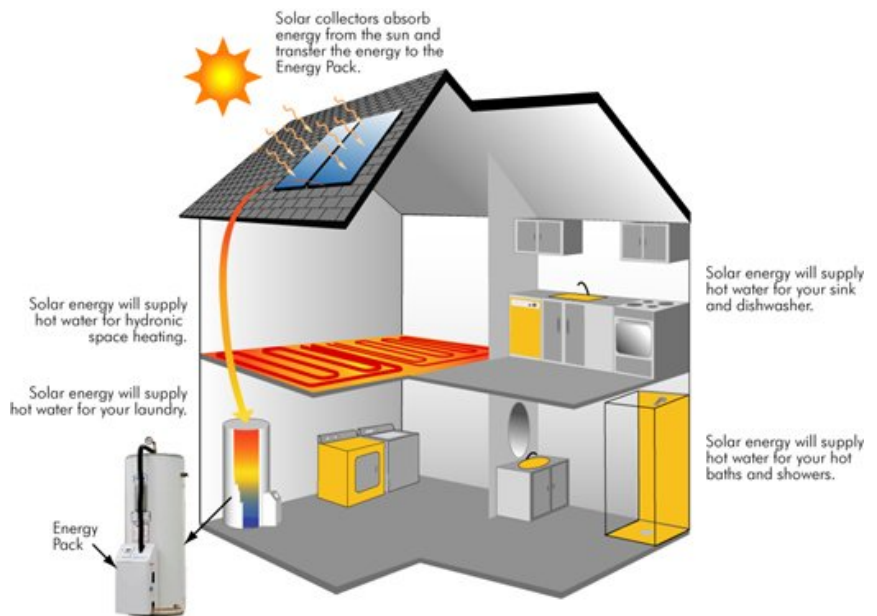

The Energy Kinetics Smart Solar water heating appliance looks like a skylight. It's a clean, cost-effective solution that uses the sun's energy to heat your water. The system is attractive, safe, and reliable and requires minimal maintenance over its long operational life. Installation is done by certified professionals and backed by a 10-year limited warranty.

Hot Deal! For a limited time, NYS residents can get the Smart Solar system installed for only \$3,600! (net cost after tax credits & rebates)

Save an extra \$2400 by also installing an Energy Kinetics natural gas home heating system. Call for details!

Our complete turnkey system includes:

- (2) 4x8 solar collectors including mounting hardware and leaf guard kit
- 80 gallon high performance solar hot water storage tank
- Energy Pack including Heat Exchanger, Pump, Motor, and Digital Controller with wireless remote monitor
- Complete OG-300 rated system-fully installed

With the exclusive Thermal Energy Monitor you'll know at a glance your money saved, carbon dioxide (CO2) emissions prevented, solar energy captured, gas or electricity saved, and much more!

Pricing Example

\$9,500.00	Installed package price (subject to site inspection)
-\$1,425.00	15% National Grid rebate for natural gas heated customers only
-\$2,422.00	30% federal tax credit
